WESTON NURSERIES

1931

WESTON, MASSACHUSETTS

To Our Customers

THE WESTON NURSERIES are located in the southern part of the Town of Weston, 13 miles from Boston, on a large, open field which a few years ago was used as an aviation field. Coming out from Boston on Commonwealth Avenue, follow South Avenue, the Framingham Road, Route 23. Winter Street is the first left after you cross Wellesley Street. We are one minute's drive down Winter Street, right back of the pine growth.

It is to our interest to see that only good and correctly named plants leave the Nursery. But we give no guarantee as to description, quality or productiveness of any plants we sell, and will not be in any way responsible, since the failure of any depends on the customer's care of the plants.

Any errors made by us will be gladly rectified if notice is given immediately after unpacking the plants. If any plants are found to be misnamed, we will replace them the next planting season.

If cash is sent with the order, we omit the usual charge for packing.

We sell 5 at the rate of 10 and 25 at the rate of 100 where those rates are quoted.

A certificate of state inspection for freedom from injurious insects or diseases on our plants will go with every order.

We would like to remind our customers that besides the plants listed in this catalog, we also grow and sell a variety of Annual Bedding Plants. Evergreens for Forest and Base Plantings, Garden Furniture, Bird Baths, Gazing Globes, etc., Garden Books and Tools.

In Autumn we handle some of the best varieties of hardy Bulbs, Tulips, Narcissus, Lilies, etc.—all high quality named sorts.

Visitors are always welcome but no plants will be dug on Sundays.

THE increase of our business from a small beginning of a few years ago to the present size of about 50 acres shows that our service is appreciated by our customers and that the plants bought from us are giving the desired results.

The several first prizes received from the Massachusetts Horticultural Society for our exhibits the past season emphasize the fact that our plants are of superior quality and of high standard.
